

## COMPANY POLICY FOR QUALITY AND THE ENVIRONMENT

Inver S.p.A., a leading company for more than 70 years in the industrial paint sector, has a commitment to:

- interpreting and satisfying client needs creating a service that conforms to the standards in force and provided under conditions that respect the environment and safety standards for the protection of workers.
- obtaining and maintaining a high reputation in regard to quality through the offer of its products and related services.
- preventing pollution and continuous improvement of environmental performance.

The Integrated System adopted allows the company to reach the quality and environmental objectives and consequently to achieve maximum competitiveness. To reach these goals Inver S.p.A. is committed to:

- maintaining an effective Integrated Management System in accordance with the requirements of UNI EN ISO 14001: 2004 and UNI EN ISO 9001:2000;
- identifying responsibilities, procedures and making available resources, economic means and expertise suitable for ensuring an adequate management of all aspects of the Integrated System;
- exercising adequate control of environmental impact deriving from company activities, guaranteeing maximum compatibility with the surrounding territory and the population;
- minimising consumption of energy, water, raw materials and at the same time the generation of waste products;
- ensuring that company activities are carried out in rigorous respect of the regulations in force applicable to the environment, administration and the sector (labelling, packing, transport);
- continual improvement of company efficiency setting goals and reference points particularly for the more important aspects:
  - atmospheric emissions, odours and noise.
  - research and introduction of new products featuring improvements in their technical characteristics and environmental impact.
- ensuring that the policy stated here and related management system are understood, implemented and maintained at all levels of organisation and that the system is sustained by regular and systematic training;
- ensuring open dialogue with the competent public authorities and in general with all interested parties.

An essential instrument for keeping the commitments mentioned is the existence and continuous improvement of the Integrated System, circulated and shared at all levels of the organisation.

It is the responsibility of the Management to ensure that this Quality and Environmental Policy is circulated and understood at all levels of the company organisational structure and all the personnel.
